# COLLECTORS — INVESTORS — DEALERS:

This is our first big list of world gold since our gold list of the summer of 1974 — there are over 145 different countries represented in this list with coins priced from \$10 to \$25,000 to fit every collector's pocketbook.

There are many reasons why we feel world gold has one of the best investment potentials in the coin business and why we think you should be collecting or investing in this field — just a few of the reasons are:

1. Numismatic value — many of the new issues and most of the older ones have very small mintage figures in comparison to the United States coinage series — and with so many countries involved, we feel you have more of a chance to pick up on "sleepers", etc.

2. Intrinsic value — don't forget — each coin you buy is a gold coin. We feel with world gold you have the advantages of both numismatic and intrinsic value.

3. Historical significance — many of the coins in this list depict famous events, people, movements, etc. Many of the new issues in particular are commemoratives of one type of another.

There are many ways to start a collection of world gold — some people like to buy one coin from every country in the world that issued a gold coin, others like to buy a gold coin for each country they have personally visited, others like to collect the coins of their heritage — such as Italians collecting gold coins of Italy, Jews collecting Israeli gold coins, etc. We have had some collectors who wanted only gold coins that had a particular date on them which was of some importance to them — i.e., their birthdate, or their wedding anniversary, their children's birthdates, etc. Many people like to collect gold coins with animals depicted on them (and many of the new issues have them!). Anyway — you can see that the variety and ways to collect world gold is endless — we would be glad to help you start a collection (or add to the one you already have) — if you need some help or any information feel free to drop us a note in the mail and let us know what you have in mind — or give us a call person-to-person (not collect) and we will try and answer some of your questions.

One thing is for sure — if you are going to either collect — invest — or be a dealer in world gold — you need the following books — "buy the book before the coin" is an old numismatic saying and it certainly is true today — these three books show photos, prices, mintage figures, etc. for just about any gold coins you are likely to run across and definitely belong in your numismatic library!

**EUROPEAN GOLD COINS GUIDE BOOK** by Hans Schlumberger — brand new 1975 edition with updated prices, more information and a whole section devoted to gold coins of Turkey — lists all European gold coins from approx. 1800 onwards along with mintage figures where known, etc. . . . . **\$15.00**

**CONTEMPORARY WORLD GOLD COINS** by Sanford J. Durst — brand new 1975 edition listing all of the modern gold issues from 1934 thru 1974 along with mintage figures where known, approx. prices, etc. The only book of its kind on the market and a must for the modern gold collector . . . . . **\$8.95**

**GOLD COINS OF THE WORLD** by Robert Friedberg — this is the brand new 4th edition due out before Christmas — this is the "Bible" for all world gold collectors and dealers as it lists most world gold complete from 600 A.D. to the present — along with revised prices, photos, etc. and a book that belongs on every dealers and collectors bookshelf — we have been promised first delivery of the new books as soon as they come off the press by the publisher and we are taking firm orders for delivery as soon as the book is published (hopefully before Christmas) — this book is expensive but worth every penny . . . . . **\$22.50**

## WANT LIST SERVICE

We specialize in locating that hard to find gold coin — send us your want list and we will do our best to help you find it — we are connected via Telex to all the overseas banks and dealers throughout the world and will use all of these world-wide connections to help locate the gold coins you need.
